About Us

OK Construction and Supply LTD is a local company registered in accordance with South Sudan Companies Act, (2012) to legally operate business in South Sudan. It is also registered by other government institutions including; *the Chamber of Commerce & Industry and Directorate of Taxation*.

The Company's main areas of focus is: in Building construction works, Water Distribution works, installation of Elevated water tower structures, Electrical and solar installation works, Civil engineering consultations, road surveying works, preparing architectural and structural designs for all ground and multi-storied buildings, design of water distribution works and general supply works.

Quick resource mobilization and implementing projects with highly skilled personnel has always led the company to complete most of its contracts on/before schedule. Everything we do is geared towards ensuring that we remain a step forward in providing quality services as a supplier, distributor, employer, and a reliable partner of choice.

We are constantly evolving in order to become more flexible in our operations, more creative, and definitely more sustainable in our use of resources. We are always innovative while conducting our national (South Sudan) regional and beyond business obligations, with a sole purpose of making this world more beautiful.

We foster long-term customer relationships by providing them with reliable, high-quality service and consistent product quality. We constantly adapt to our customers' needs through innovative products, providing them with solutions for the challenges they face in their specific market and business climate.

VISION

Working hard for excellence in a diverse range of construction works. Our extensive experience in each and every realm is driven by the breadth and depth of our qualified teams, all who take pride in doing the best possible job for our clients.

MISSION

We work strategically at maintaining high standards, ethics and professional accountability. The Private, Government and NGO sectors rely on us because our innovation, technology and highly skilled personnel make the winning formula to successfully do sector

QUALITY ASSURANCE

OK Construction and Supply LTD aim to provide a construction service of the highest standard and is committed to understanding, meeting and exceeding the needs and expectations of all our clients. The Company policy of continuous improvement is aided with the information gathered from our customer satisfaction surveys and regular reviews of targets and objectives.

This is based on fully understanding and accepting clients' requirements at every stage of the project from initial site meeting through construction stage to the final Project handover.

Our day-to-day management of activities is being handled by experienced and qualified personnel to ensure maximum quality of service.

COMPANY PERSONNEL

- ★ Over the years, our team of experts have performed their duties to ensure works are executed to the required standards and specification.
- ★ The company usually recruits its casual labor from the locality of the project at hand and this helps in generating income for the people in the community where we deliver our projects.
- ★ All Staffs have documents spelling out accurate and current job description which defines duties, responsibilities and accountability relationships for each staff position within the unit.
- ★ We have a written statement covering the roles, responsibilities and membership of the Management Committee/Board of Management or other decision-making bodies. Our current organization chart is showing the overall organizational structure and accountability relationships of the unit.
- ★ We ensure that the job description specified above is available to service users, staff and other interested parties.

WORD FROM MANAGEMENT

Over the past 2 years, we have grown and become an integral part of the General supplies business and general construction services industry in South Sudan. We are proud of our achievements and systems; but above all we are proud of our staff members from the most junior staff member through to our executive managers who have contributed to the growth and continued success of OK Construction and Supply Co. Ltd

Our success can be attributed to our commitment to maintain a professional working environment based on honesty, fair dealing and sound business ethics.

Our Company is strongly committed to implementing policies and procedures that reflect a high level of ethical business practices and client satisfaction. We are committed to building excellence through partnerships and we will continuously strengthen our policies and practices to promote the interest of our clients, partners, employees, community and our beloved Country South Sudan.

Adding to our strong volume of growth is the expanding of our services to other places outside Juba City. We serve areas like Juba, Nimule, Torit, Malakal, Bentiu, Wau, Kapoeta, Maridi, Yei, Yambio and many others within South Sudan

Our executive management team's drive and leadership has for years delivered excellent results and significantly expanding the business while at the same time successfully delivering quality services to our clients.

Our clients are the pillars of OK Construction Company Ltd. we are proud of the unwavering support you continue to offer us.

APPROACH

We have built a reputation for being among the most expert and reliable companies in our sector of general construction services.

INTEGRATED SERVICES;

Being a national company with links to some of the best suppliers in East Africa, Middle East; our clients benefit from this one-stop-shop approach because we can offer lower costs, innovative solutions, better delivery schedules and executive capability.

QUALITY MANAGEMENT;

Our philosophy and approach to quality management extends throughout the company.

Employees at all levels and across all functions are accountable and responsible for complying with standards, seeking improvements and reporting problems.

This has led to significant cost- saving measures and process improvements, and we continue to review and modify our procedures for better results – all of this is to benefit our clients.

“Quality is a degree of our excellence, which is ever changing. Every member of staff is involved in managing how we can improve today and tomorrow.”
